Coming Clean Liz Fraser 2021-09-30 My name is Liz, and I am the partner of an alcoholic. Coming Clean is a searingly honest memoir of loving an alcoholic - both through the heaviest drinking years and into recovery. When Liz Fraser's partner fell into a catastrophic vortex of depression and alcoholism, Liz found herself in a relentless hailstorm of lies, loneliness and fear, looking after their young child on her own, heartbroken, mentally shattered and with no idea what was happening or what to do. As she and her family moved between Cambridge, Venice and Oxford, she kept the often shocking truth entirely to herself for a long time, trying in vain to help her partner find a path to sobriety, until she herself finally broke from the trauma and started to speak out - only to find she was one of hundreds experiencing similar things, also living in silence and fear. Part diary, part travel journal and part love letter, Coming Clean is the true story of addiction of many kinds, mental collapse and heartbreak. Above all, it offers a voice of deep human compassion, strength and hope for recovery. I hope that in sharing this story it might change the way addiction is talked about and understood from both sides, encourage open, trusting and supportive dialogue between addicts and those their addiction affects, and provide some solace and help for those who need it - as I did.

Coming Clean Cathryn Kemp 2017-02-02 'A brave, heartfelt and extraordinary book' Corinne Sweet, author of *Overcoming Addiction*, psychologist and broadcaster What if the drugs that were meant to cure you slowly started to kill you? After falling dangerously ill with acute-on-chronic pancreatitis, Cathryn Kemp left hospital

with a repeat prescription for fentanyl, a painkiller 100 times stronger than heroin. Within two years she was taking almost ten times the NHS maximum daily dose - all on prescription - and her life began to spiral out of control. Cathryn discovered she had just three months to live, unless she gave up the drug she clung to so desperately. After selling everything she owned and checking into rehab, Cathryn was told by the doctors that recovery was highly unlikely. Yet to everyone's amazement, she proved them wrong. Coming Clean is a poignant, vivid and honest memoir of a woman's struggle with, and subsequent victory over, her demons. It is a love story, a horror story, a survival story, and one that shows the very real dangers of the over-prescription of painkillers.

DailyConfession.com was created as an outlet where people could confess their sins and unburden their souls in complete anonymity, as well as receive honest, compassionate responses from fellow Web users. As the Web site's popularity grew, visiting the site soon became a daily obsession for millions. Coming Clean comes directly from the Internet pages of DailyConfession.com. In this truly unique collection, author and webmaster Greg Fox has compiled the wildest and wackiest confessions and responses posted to the site. The confessions are organized into categories (loosely) based on the Ten Commandments, such as That Old Time Religion; Urges, Obsessions, and Fantasies; Stop, Thief!; Family Matters; and Liar, Liar! The confessions and responses included range from the serious and truly poignant - tales of true love, suicide, and

spiritual waning - to the hilariously kooky - weird habits, alien abductions, and naked neighbors. Intensely entertaining, this book doesn't merely offer gratuitous voyeurism; it illuminates some intriguing - and surprisingly common - aspects of human nature. Those who dip into *Coming Clean* are bound to recognize themselves in the pages of this fascinating book.

Dirty Girls Come Clean Crystal Renaud 2011-04-01 You are not alone. The sexual addictions of pornography and masturbation are not just men's issues. They're women's issues, too. Research shows that 25% of Christian women are addicted to pornography. But 70% of these women will never admit their struggle. In *Dirty Girls Come Clean*, Crystal Renaud aims to change these statistics and help you gain freedom from sexual addiction. Why This Book? So often, ministries and tools for overcoming these sexual addictions are more accessible to men than they are to women. Even if these ministries and tools were accessible to women, they may not be as effective in giving freedom because women turn to pornography for different reasons than men do. Women need a resource crafted specifically for them. A Trusted Source Crystal, founder of Dirty Girls Ministries and AACC certified counselor, comes clean first. Her story of addiction to pornography began when she was 10 years old and continued and intensified for eight years. During this time of sexual addiction, Crystal deceived and withdrew. She came to know shame intimately, and she thought she was alone in her struggle. After coming clean about her sexual addiction, Crystal also includes stories of other women who have come clean about theirs. A Plan for Freedom Crystal is determined to help women come clean and, by God's grace and power, get free. Addressing both the sexual addictions themselves as well as underlying issues that cause them, Crystal provides a plan for freedom using the acronym SCARS. S—Surrender: Trusting the Healer C—Confession: Out of the Darkness A—Accountability: Restoring Our

Character R—Responsibility: Owning My Part of the Story S—Sharing: God Never Wastes an Experience In addition to her plan for freedom from sexual addiction, Crystal provides other resources such as: personal inventories, the twelve steps of sexaholics anonymous, online accountability programs, other books, and links to recovery groups. Join Crystal and many others who have claimed freedom from sexual addiction. Now is your time to come clean and be free. “With the recent release of Crystal’s book *Dirty Girls Come Clean* women now have the tools they need to fight a battle that many assume only ensnares men. I can only imagine what kind of hope and encouragement this book is going to offer women who have believed for years, decades, that they were the only ones struggling and there was no hope for them.” - Book review by Marsha Fisher on porntopurity.com An Excerpt from the First Chapter: This book is for you, the woman who feels alone in addiction to pornography. I don’t believe in coincidences. This book is in your hands because God wants to speak some truth to you, and, for whatever reason, He’s chosen to use this book to do so. The dark cloud of this addiction is far-reaching. Pornography addiction knows no path other than one of destruction, isolation, and suffocation. Pornography addiction knows no creed. Pornography addiction knows no gender. We are all sexual beings. If not, you and I would not be living on this earth. So to believe that pornography can only be a man’s problem is not only false, but it is an ignorant lie that comes from the enemy. The enemy, Satan, deceived Even in the garden of Eden by convincing her that if she ate the forbidden fruit, she would be like God. She in turn offered Adam the fruit, he took some, and as a result of their disobedience, they were expelled from the beautiful garden where they had enjoyed perfect fellowship with God. Satan’s goal was to destroy. And the enemy has been trying to destroy women ever since. From the first bite of forbidden fruit to pornography addiction, the enemy will use whatever he can to deceive us and keep us ineffective for use in the kingdom of God. May you find comfort in knowing that not only are you not alone in your struggle, but there is hope for breaking the stronghold of this addiction. And that hope comes from Jesus. I

write this book from a Christian point of view because it is my personal belief that Jesus is the reason I stand free from pornography today. But as I said, pornography addiction knows no creed. Pornography affects everyone. So it is my hope that the steps provided throughout this book will be beneficial to all women, from all walks of life. You were created for so much more than this life you’ve been living. Life is to be lived abundantly. It is time to come on out from behind the bushes. Life is waiting.

Coming Clean Michael Brune 2010 Michael Brune, executive director of Rainforest Action Network (RAN), shows us how we, as motivated citizens, can kick our own fossil-fuel habit and pressure policymakers and corporations to change their energy priorities. His vivid reports remind us of the economic, environmental, moral, and public-health costs of fossil-fuel dependence, and how our government and international banks are complicit. Brune also describes the most promising developments in renewables, biofuels, and efficient design, and offers an inspiring vision of the clean energy future within our reach. Under Brune's leadership, RAN has had stunning success in getting corporations to green their business practices, and his activist skills and passion are at the heart of this book. Overflowing with pragmatic and well-tested advice, *Coming Clean* is rooted in the author's faith that Americans acting together can create profound change.-- From publisher description.

Dirty Secret Jessie Sholl 2010-12-28 A fascinating look at compulsive hoarding by a woman whose mother suffers from the disease. To be the child of a compulsive hoarder is to live in a permanent state of unease. Because if my mother is one of those crazy junk-house people, then what does that make me? When her divorced mother was diagnosed with cancer, New York City writer Jessie Sholl returned to her hometown of Minneapolis to help her prepare for her upcoming surgery and get her affairs in order. While a daunting task for any adult dealing with an aging parent, it's compounded for Sholl by one lifelong, complex, and confounding truth: her mother is a compulsive hoarder. *Dirty Secret* is a daughter's powerful memoir of confronting her mother's disorder, of searching for the normalcy that was never hers as a child, and, finally, cleaning out the clutter of her mother's home in the hopes of salvaging the true heart of their relationship—before it's too late. Growing up, young Jessie knew her mother wasn't like other mothers: chronically disorganized, she might forgo picking Jessie up from kindergarten to spend the afternoon thrift store shopping. Now, tracing the downward spiral in her mother's hoarding behavior to the death of a long-time boyfriend, she bravely wades into a pathological sea of stuff: broken appliances, moldy cowboy boots, twenty identical pairs of graying bargain-bin sneakers, abandoned arts and crafts,

newspapers, magazines, a dresser drawer crammed with discarded eyeglasses, shovelfuls of junk mail . . . the things that become a hoarder's "treasures." With candor, wit, and not a drop of sentimentality, Jessie Sholl explores the many personal and psychological ramifications of hoarding while telling an unforgettable mother-daughter tale.

Coming Clean Jorge L. Valdés 2008-05-13 We live in a world where many live by the "what have you done for me lately?" philosophy. Love, care, and concern is based on what a person has done for them, who that person is, or for what they can get out of a situation. We are self-centered in our love as a society. Against this kind of love comes unconditional love. It is the kind of love that expresses itself to everyone, no matter who they are, no matter what they have done, and expects nothing in return. When Jesus Christ walked the earth as the God/man this was the kind of love he exhibited to others. His death on the cross is God's ultimate expression of unconditional love. As we live Christian lives, the call is upon us to practice unconditional love just as God does. This generation desperately needs to experience genuine, unselfish, Godly love. In UNCONDITIONAL, the author chronicles his journey seeking to practice unconditional love, sometimes successfully, sometimes struggling. May his journey inspire the reader to be God's example of His unconditional love. This is a reproduction of a book published before 1923. Sometime in the early 1990's, I started writing on a "typewriter", that's what I said, a "typewriter". I don't know why I began writing, nobody asked me to write and I never considered writing as something I'd just do, but there I was clumsily, slowly but creatively pecking away. Writing down thoughts, ideas, streets, characters, chatter, dialogue and actions that actually made me laugh and or reflect. After some months had passed, I had finished my first complete story, which I never read again. But instead I threw it in a drawer unedited and unread by anyone. I began to write another story, which I eventually finished and again tossed it into another drawer, unedited and unread. Almost right away I wrote a play and again tossed it into another drawer. Talking about your closet writer! I continued to write short stories about events and relationships unplanned or outlined, letting the characters, times and places drive my way through each chronicle while piling story on top of story in my desk drawer. So what was it? Why did I continue to write? Hell, because I got off on it. I wasn't trying to make a name for myself as an "author" or try to become rich, but it was just for the time I spend alone in my writer's closet with not a soul around to tell me what to do or where to go, how things should be done, or the heartache of the world we live in. I have determined that if nobody reads a word, writing is just something I like to do. Now, we've finally come to this, Chronicles of a Nappi Head. ENJOY Do you know the secrets behind your church doors? Tori Braswell is a young and aspiring career woman who fell down on her luck in love. She meets a man who changes her life forever. A fatal accident occurs and a life is lost; another is hanging between life and death, and someone is left waiting. In this book, I do not intend to write in detail about the sisal plant and its husbandry as such account is thoroughly discussed in the book titled Sisal by G. Lock and others. This book will only carry full history as regards to when and how sisal came to Tanzania and its post independence development. It will also discuss how the industry was managed by both German and British Colonial regimes with emphasis on how sisal cutters were recruited within the country and deplorable conditions of their employment which might lead one to suspect that the recruitment exercise was somehow another form of modern slavery in modern times when British, Greeks, and Asian nationals were managing sisal estates during the British colonial rule. The rain, which had sputtered across the landscape for a fortnight, had ceased. A brief spell of warmth and sunshine had bathed the gardens all morning, bringing the world into summer bloom. I have learned that creative activity can only take place when an inner voice compels one to write or compose. James Baldwin said that there were days when the muses simply were not speaking to him; therefore he could not write. I agree with that. The poems in this collection came to me as a result of things that profoundly affected me at the time. Thus, producing words in my mind that had to be put on paper. I particularly recall the day the Carolina wren pushed me to write The Carolina Wren Came Calling. My Lord What a Morning was composed after a memorable trip to Washington, DC and He Walked Away From Me, after the death of my partner. Life does change rapidly so set sail and enjoy. I have discovered through out my years in the ministry, that many pastors were having difficulty counseling their members. Basically because people do not only deal with the problems of man's sinful nature, but they also deal with psychological problems, that could be generic in their make up. Then there are the generational curses that may not have been broken. This is why I believe, that pastors need to be equipped

to counsel the whole man, and to assess mental disorders from sinful nature behavior. The answer to problems and remedies used today show that the consumption of medicines is quite popular. However complete wholeness through the word of God should be as popular. The bible states in proverbs 24:6 (Amp), for by wise counsel you can wage your war and in an abundance of counselors there is victory and safety. This book is dedicated to all the victims who died on September 11, 2001. In addition to the 2, 750 people who died in Manhattan, 184 individuals died at the Pentagon in Washington D.C., and 40 victims died in Shanksville, Pennsylvania. May we never forget them and may we hold their memories in our hearts forever. I am a retired Senior Design Engineer living in warm, sunny San Diego, California. I find writing a very relaxing hobby as well as a way to put down my thoughts and events of the day. I also enjoy writing rhyming children's tales of magical wonder and enchantment, hopefully someday soon to have published. I especially enjoy putting on paper my childhood days living in an orphanage and three foster homes. Each problem is a small bit of my life as a child, and I have written a book of my younger days up to the age of 21, when I started my drive to San Diego from New York City on a cold winter's night. Best drive I have made. Life is good no matter how bad it may seem. Enjoy it to the fullest. My hobbies are; reading, writing, RC model boats, building them, sailing them, electronic tinkering, computers, digital photography of sunsets, and being a "health food" fanatic. These last four contain only about 25 extended essays each. Rolwing examines nearly all the major writers on our Basic Charter, most of whom repudiate it.

He focuses on their manifold criticisms and rejections, reveals their multiple distortions and misunderstandings, rebukes their self-contradictions and inconsistencies, and pities their general theo-phobia. He argues that while America was Founded almost completely by Protestant Christians (the only two "deists" were not even "deists"), what was Founded was formally only a philosophical product, not a faith based or Christian one, although the philosophy had been more Catholic than Protestant. Rolwing makes a great deal of American history, law, ethics, politics, philosophy, and theology easily accessible to the average reader. Each 5 minute essay can give you a high for the whole day. "Certainly the Declaration is worth many an hour explaining and defending it. Mr. Rolwing seeks to make the problems brought up about the document capable of being understood by both scholar and ordinary citizen." "A Season in Prison" is a unique contribution to prison literature. It is subtle and often poetic. More importantly, it shows how one man redirected. His rage into love and imagination as the most enduring and effective tools of survival. Fasting is a means to treat incurable diseases of the present time. Fasting is an operation without using surgical knife, is a victory to ourselves to rejuvenate our cells, to enhance resistance system etc... Meditation is also a means for people to live happily and peacefully or Medication is a way to live happily, to pass away peacefully. The world is more peaceful and happier as we are in a day of fasting and meditation. TIEN THIEN KHI CONG helps everyone live healthily, happily, peacefully, and freely at passing away. Special thanks to the folks that supported me throughout the creation of this book. I could not have gotten through it without a lot of help. Patty Tidd, John's special lady was a big supporter. Thanks to Bob Shipley and Summer Foovay for your editing eyes. Brent Martin and his family helped me decide on a title for the book so they deserve thanks as well. Without the patience of my dear husband, Gregg, I would never had been able to accomplish a finished product. Thanks to everyone for your help. This is a thoughtful and intricate novel (by my father) that raises questions not only about the potential of cyber terrorism but about America's role in the world. It tells the story of

two aging computer experts who are forced out of retirement to try to combat an attack on America's computerized financial infrastructure. The terrorists have an unusual demand--that the United States establish a Department of Peace. There are moments of drama, humor and levity, and ultimately the story is critical of aspects of both Islamic fundamentalism and of the kind of dogmatic, tone-deaf American foreign policy that has characterized the Bush administration. *The Ferrari Vendetta* is a well written suspense\ action packed novel. The author, Richard Jay, piques the interest of the reader with his colorful and descriptive writing style. He keeps the reader intrigued with the plot and it's a Can't put it down novel.

Coming Clean Tom Gunn 2010-09-22 "If you think you have a drinking problem, you probably do. If you think you can handle it without any outside help, you're probably wrong. In fact, I'll bet you've tried. And still have a problem." Thus begins Tom Gunn's *Coming Clean*, a handbook disguised as a memoir, a small book with a big message, a book that cuts through the excuses and puts a spotlight on the path to recovery. In this, Gunn is an expert—a well-practiced substance abuser from the age of fifteen who spent more than twenty years living in a self-induced fog before confronting his disease. He's been sober now for almost thirty years and has stories to tell. While readers will learn something about Tom Gunn, they will learn more about themselves. Gunn, trained as a lawyer, became a super-salesman and served as head of international sales for one of the world's largest aerospace companies and as president of a helicopter company. For too many years, he avoided getting straight and thought he was doing just fine. As he writes, "I always was very good at my job in spite of the fact that I was using. After I came clean, I was very good at my job. I always thought that booze and pills made me super creative, helping me write speeches and position papers and marketing plans and I was on top of the world! Truth was, I was very good at faking it. Call it, style over substance. It was not until I got sober that I learned how creative I really could be." Advance praise for *Coming Clean*: "In more than three decades specializing in the assessment and treatment of addiction, I've read many books written by and for substance abusers. Some are technical, some anecdotal, some 'conversational,' and each makes a contribution in one way or another—but I've never before read a book that so effectively targets men and women who know they have a problem, but are not yet comfortable with the idea of doing something about it." Ronald B. Dicker, PhD, Licensed Clinical Psychologist, St. Louis, Missouri.

Coming Clean John Edwards 2000-04-01 COMING CLEAN, a discussion of typical heterosexual behaviors, doesn't pretend that

masculine and feminine miscommunications should be celebrated as multicultural differences or inter-species contact. In a society obsessed with sex but fraudulent about real exploration of its vagaries, Edwards and Stephen contend that most people think sex is dirty, that sexual excitement is based on taboo, and that most of us don't believe decent people should do that stuff. Weary of sentimental self-help books that serve warmed-over romantic clichés and rationalize neo-Victorian voyeurism, the authors gaze at the reptilian spectacle of sexual congress and the nightmare of idiotic mind games between men and women. *COMING CLEAN* exposes the guilt, confusion, and self-loathing that people choke back when we remember what we did last night. In the wake of the sexual revolution and the erotophobic backlash, this book dispenses with self-deceiving nonsense about romance, force-fed to us all since birth. *COMING CLEAN* says sex is emotional and physical TNT. It's a minefield. It's a mess. And it's funny.

Coming Clean Robert Granfield 1999-11-01 Read the Authors' Op-Ed on the Seattle Post-Intelligencer *Sin No More* offers a vivid examination of some of the most morally and politically disputed issues of our time: abortion, gay rights, assisted suicide, stem cell research, and legalized gambling. These are moral values issues, all of which are hotly, sometimes violently, contested in America. The authors

cover these issues in depth, looking at the nature of efforts to initiate reforms, to define constituencies, to mobilize resources, to frame debates, and to shape public opinion—all in an effort to achieve social change, create, or re-write legislation. Of the issues under scrutiny only legalized gambling has managed to achieve widespread acceptance despite moral qualms from some. *Sin No More* seeks to show what these laws and attitudes tell us about Americans' approach to law and morality, and about our changing conceptions of sin, crime and illegality. Running through each chapter is a central tension: that American attitudes and laws toward these victimless crimes are going through a process of normalization. Despite conservative rhetoric the authors argue that the tide is turning on each of these issues, with all moving toward acceptance, or decriminalization, in society. Each issue is at a different point in terms of this acceptance, and each has traveled different roads to achieve their current status.

Cat Daddy Jackson Galaxy 2012-05-10 Cat behaviorist and star of Animal Planet's hit television show *My Cat from Hell*, Jackson Galaxy, a.k.a. "Cat Daddy," isn't what you might expect for a cat expert (as *The New York Times* noted, with his goatee and tattoos, he "looks like a Hells Angel"). Yet Galaxy's ability to connect with even the most troubled felines -- not to mention the stressed-out humans living in their wake -- is awe-inspiring. In this book, Galaxy tells the poignant story of his thirteen-year relationship with a petite gray-and-white short-

haired cat named Benny, and gives singular advice for living with, caring for, and loving the feline in your home. When Benny arrived in his life, Galaxy was a down-and-out rock musician with not too much more going on than a part-time job at an animal shelter and a drug problem. Benny's previous owner brought the cat to the shelter in a cardboard box to give him up. Benny had seen better days --- his pelvis had just been shattered by the wheels of a car -- and his owner insisted he'd been "unbondable" from day one. Nothing could have been further from the truth. An inspiring account of two broken beings who fixed each other, Cat Daddy is laced throughout with Galaxy's amazing "Cat Mojo" advice for understanding what cats need most from us humans in order to live happier, healthier lives.

Coming Clean Robert Granfield 1999-11-01 Despite the widely accepted view that formal treatment and twelve-step groups are essential for overcoming dependencies on alcohol and drugs, each year large numbers of former addicts quietly recover on their own, without any formal treatment or participation in self-help groups at all. *Coming Clean* explores the untold stories of untreated addicts who have recovered from a lifestyle of excessive and compulsive substance use without professional assistance. Based on 46 in-depth interviews with formerly addicted individuals, this controversial volume examines their reasons for avoiding treatment, the strategies they employed to break away from their dependencies, the circumstances that facilitated untreated recovery, and the implications of recovery without treatment for treatment professionals as well as for prevention and drug policy. Because of the pervasive belief that addiction is a disease requiring formal intervention, few training programs for physicians, social workers, psychologists, and other health professionals explore the phenomenon of natural recovery from addiction. *Coming Clean* offers insights for treatment professionals of how recovery without treatment can work and how candidates for this approach can be identified. A detailed appendix outlines specific strategies which will be of interest to addicted individuals themselves who wish to attempt the process of recovery without

treatment.

Coming Clean Seth Haines 2015-10-27 Christianity Today Book Award Winner; ECPA Award Finalist Boldly honest, powerfully told, deeply moving - this is a story about finding yourself. Seth Haines' memoir holds up a mirror to all of our stories to show the peace that is possible when we release our addictions and receive the healing presence of God. Seth Haines was in the hospital with his wife, planning funeral songs for their not-yet two-year-old, when he made a very conscious decision: this was the last day he wanted to feel. That evening, he asked his sister to smuggle in a bottle of gin and gave in to addiction. But whether or not you've ever had a drop to drink in your life, this book is for all who have sought ways to stop their pain. Like Seth, we're all seeking balms for the anxiety of what sometimes seems to be an absent, unresponsive God - whether it's through people-pleasing, social media likes, shopping, the internet, food, career highs, or even good works and elite theology. Too often we attempt to escape our anxiety through addiction - any old addiction. But it often leaves us feeling even more empty than before. In *Coming Clean*, Seth Haines writes a raw account of his first 90 days of sobriety, illuminating how to face the pain we'd rather avoid, and even more importantly, how an abiding God meets us in that pain. Seth shows us that true wholeness is found in facing our pain and anxieties with the tenacity and tenderness of Jesus, and only through Christ's passion can we truly come clean.

Coming Clean Michael E. Kraft 2011-01-14 An investigation into the policy effects of requiring firms to disclose information about their environmental performance. *Coming Clean* is the first book to investigate the process of information disclosure as a policy strategy for environmental protection. This process, which requires that firms disclose information about their environmental performance, is part of an approach to environmental protection that eschews the conventional command-and-control regulatory apparatus, which sometimes leads government and industry to focus on meeting only minimal standards. The authors of *Coming Clean* examine the effectiveness of information disclosure in achieving actual improvements in corporate environmental performance by analyzing data from the federal government's Toxics Release Inventory, or TRI, and drawing on an original set of survey data from corporations and federal, state, and local officials, among other sources. The authors find that TRI—probably the best-known example of information disclosure—has had a substantial effect over time on the environmental performance of industry. But, drawing on case studies from across the nation, they show that the improvement is not uniform: some facilities have been leaders while others have been laggards. The authors argue that information disclosure has an important role to play in environmental policy—but only as part of an integrated set of policy tools that includes conventional regulation.

Coming Clean Kylie Lewis 2020-04-06 Six years ago, after reaching my own rock bottom, I

decided to make a complete life transformation. This transformation included leaving my job as a bartender, selling my car, healing my substance abuse issues and becoming a full time artist, coach and podcast host. I went from depressed, insecure and purposeless to fully alive, healthy, confident, and passionately in love. I now share my story and the tools I've gathered through personal growth workshops, women's retreats, public speaking engagements, my podcast *Coming Clean* with Kylie Lewis, and now, this book. In these pages, I invite you to explore all of the ways in which you attempt to avoid, numb, or distract yourself from your truest feelings and distance yourself from love. *Coming Clean* is the process of releasing each of these tendencies in order to discover what lies beneath the barriers you have carefully constructed around your heart. This transformation requires you to allow your old personality to die so that you can transform into someone new. You will be asked to set down the weight of your past so that you can step forward into a lighter and brighter future. Eventually, you'll be met with the realization that you are the author of your life and therefore, you have the power to write a new story for yourself.
