11+ Confidence: Practice Exam

Papers Practice is the key to success. Pupils need experience in deciding and

documenting their answers efficiently. They need total familiarity with the spectrum of multiple choice questions, and with the layout of question papers and response sheets. The Eureka! 11+ Confidence series of Exam Papers provides: Question papers laid out in modern, multiple-choice format Answer sheets laid out in modern format (in places requiring digit-by-digit entry) Full answers with explanations Supplementary books giving very detailed methods, tips and tricks on the more challenging aspects of Numerical Reasoning In supporting your child's preparation for the exam: Do as much exam paper

practice as possible. Variety helps retain attention. Cut out the multiple choice answer sheet and use it to record the answers. Maximizing authenticity now minimizes exam-day anxiety. Do these practice exams formally: seated alone, away from television and radio. Immediately afterwards, encourage the pupil to mark their own work. Insist on discussing the questions which were not answered correctly. Do not set aside any errors as "silly mistakes." All mistakes are silly. The key to 11+ is attention to seemingly small details. Doing exam papers is a learning opportunity. Underline the importance of discovering

how errors were made and how they may be prevented in future. Tips, tricks and (most of all) systematic approaches for avoiding the major traps at 11+ are given in the associated "Eureka! Challenging Maths and Numerical Reasoning Exam Questions for 11+ " series of books. Thoughtful support from parents can be crucial for pupils in the run-up to examinations. Use the Eureka! Practice Exam Papers and Numerical Reasoning training books to help them reach their full potential.

Preparing for the 11+ Pupils
approaching the 11+
Examination face many
challenges, including lack of
time, uncertainty over what is
required, and an ever-changing

and secretive testing
environment. Plain
"mathematics" questions are
progressively being replaced
with more demanding
"numerical reasoning"
questions. Selective schools are
increasingly interested in not
only rote recall of methods but
also the ability to understand
questions expressed in prose
and skilfully apply (sometimes
several) mathematical principles
to arrive at an answer. The
Eureka! 11+ Challenging Maths
and Numerical Reasoning
series of books to provide
focused preparation for pupils
and their busy parents.
Questions are expressed in
words, with the pupils learning

the habit of extracting the relevant numbers and key facts. Most questions are multi-part, reflecting the trend in examinations to challenge pupils skills at progressively higher levels as the question unfolds. These questions are the upper echelon of what is tested at 11+. Although they need only Key Stage 2 concepts, they are challenging because they require good command of multiple skills simultaneously. Pupils, and perhaps even parents, will find very few of these questions to be very easy. Thankfully, the real exam will contain many easier questions, but preparation time is best spent

on those which present greater challenges and therefore more learning opportunities. When answering the questions Set yourself a target, e.g. "3 questions in half an hour" Write down clearly your steps of working in full to make checking easier Go through the answers soon after doing the questions Do not be sad if you have made mistakes: learn from them Many questions cover areas where even strong pupils are prone to errors Watch out for the Traps described Incorporate the Tips into your methods in future See if the Method suggested is quicker or less open to error than yours For any examination, diligent practice, carefully

analysing errors, mulling over methods, and developing and testing your own preferred approaches pay enormous dividends.

The
Non-Verbal Ninja Training
Course Non-verbal reasoning
questions in the 11+ exam
provoke anxiety amongst
students and parents alike,
since the test seems, at first, to
be unlike the activities of normal

everyday life. In reality, however, it is straightforward to train to improve one's performance in these puzzles. The Non-Verbal Ninja Training Course from Eureka! Eleven Plus Exams is a three-part series of training books with several features to maximise the skill boost they provide to students. Full explanations are given immediately after each block of questions. Visual explanations are provided where these are easier to understand. The early questions of each type are easy, testing only one or two rules. Challenging, broad-ranging questions are soon introduced. Each question teaches an

additional skill or reinforces a core skill. You are not told in advance exactly what the rule will be, so you build confidence in identifying the rule for yourself - a crucial skill for exam success. The series of books, studied in sequence, covers the spectrum of types of format of questions and of the types of rule being tested. Some rules can be tested in many different settings. Dedicated practice and, more importantly, careful review of the explanations of questions that turned out to be difficult, is the key to success in Non-Verbal Reasoning.
