Your guide through the
challenging waters of
managerial accounting. For
centuries, the lighthouse has
stood as a beacon of guidance
for mariners at sea. More than
an aid to navigation, the
lighthouse symbolizes safety,

permanence, reliability, and
the comforts of the familiar.
For this reason, we have
chosen to illustrate the
Canadian eighth edition
of Managerial Accounting by
Garrison, Chesley, Carroll and
Webb with an image that
encapsulates the greatest
strengths of this market
leading text. Garrison is your

guide through the challenging waters of managerial accounting. It identifies the three functions managers must perform within their organizations—plan operations, control activities, and make decisions—and explains what accounting information is necessary for these functions, how to collect it, and how to interpret it. Managerial Accounting focuses, now as in the past, on three qualities: Relevance, Balance and Clarity. The authors' steady focus on these core elements has led to tremendous results! As seafarers look to the lighthouse for direction along unfamiliar shore, so too can Garrison act as a compass for students seeking to master this course.
