Featuring 23 complete home  
furnishing plans presented with  
simple, graphic photos and  
illustrations, BLACK+DECKER  
Carpentry Made Simple is an  
interactive introduction to  
home carpentry: with great  
designs. Each carefully selected  
project contains lessons and  
valuable tips on skill building  
and design to help you improve  
as a DIYer, as you  
simultaneously create lovely,  
modern, and even elegant  
chairs, benches, shelves,  
cabinets and lots more just  
pennies on the dollar versus  
shopping in trendy boutiques.  
Carpentry Made Simple is a  
nonstop carpentry ride that will  
impress you with the quality

and diversity of the information  
it shares. The 20+ projects  
have complete plans, detail  
photos, and clear assembly  
instructions. Each project also  
highlights a skill, tool, or  
technique that will add a new  
dimension to your skill set. And  
not only will completing these  
projects sharpen your skills, but  
you will love the projects  
themselves. The design styles  
range from modern, to Euro, to  
industrial, with all of the major  
furnishing categories  
represented. When friends and  
visitors see the subtly beautiful  
contemporary furniture that  
you built yourself, you will  
realize just how satisfying it is  
to be your own home  
carpenter.

Manual of First and Second Fixing Carpentry Les Goring 2010 Beginning with the fundamentals of carpentry work within a domestic construction setting, this book outlines which tools are required, and examines their care and proper use before covering the interpretation of technical drawings. It goes on to explain a wide range of first-fixing operations prior to plastering, and second-fixing operations after plastering. Each chapter covers the subject in great detail, with step-by-step illustrations and text to provide the reader with a complete picture of the sequence of work required to carry out each job. Goring's Manual of First and Second Fixing Carpentry has

been updated to take recent developments in the building trades into account, and is also fully up to date with current industry best practice. Printed in full colour throughout, new chapter has been incorporated to address the sharpening of traditional saws. The breadth of coverage and easily accessible 'how-to' approach makes this book an ideal resource for apprentices taking NVQs and those following Construction Awards within the Wood Occupations from City & Guilds/Construction Skills. The technical detail and practical focus ensures that this book will be a vital purchase for all students, and an essential reference for any experienced carpenter or joiner.
