Tennyson's Poetry as Inspiration for Pre-Raphaelite Art Natalie Lewis 2007-06 Seminar paper from the year 2003 in the subject English Language and Literature Studies - Literature, grade: 1,0 (A), Free University of Berlin (Institute for English Philology), course: The Pre-Raphaelites in Art and Literature, 19 entries in the bibliography, language: English, comment: Analysis of the Poems "Mariana" and "Lady of Shalott" from A. Lord Tennyson. Juxtaposition of poems and picture interpretations: Comparision between the poem "Mariana" (1830) and J. E. Millais' paintings(1851), Comparison between Tennysons "Lady of Shalott" and the paintings of W. Hunt (1889-92) and J. W. Waterhouse (1888) With bibliography and appendix (3 paintings), abstract: In 1848, at the peak of British industrialism and urbanization, a group of artists founded the Pre-Raphaelite Brotherhood, a movement which revolted against contemporary academic art. Searching for new themes of a higher truth and purity, the group did not only turn to artistic and literary sources of the Medieval Ages, the Renaissance and Romanticism but also to the poetic work of the contemporary Victorian Alfred Lord Tennyson. The Pre-Raphaelite Brotherhood and the poet laureate shared a poetic affinity with medieval literature and culture. The Middle Ages provided an ideal counter world of romance, chivalry, simple order, and religious faith. In an era of modern science, Darwinism, and religious scepticism, Tennyson found his sources of inspiration in Arthurian

legends and Shakespearian drama. Between the mid 19th century and the end of World War I, Pre-Raphaelite artists produced a great number of paintings and illustrations, ie. the illustrated Moxon Edition of Poems (1857), based on the work of Alfred Tennyson. Significant thematic fascination was directed towards early romantic maiden poems, i.e. "Mariana" and "The Lady of Shalott," both published in 1832 and revised in 1842. This research paper will examine the structure, atmosphere, and symbolism of these Tennysonian ballads and analyze the Flower Fairies Postcard Book Cicely Mary Barker 2002-07 Thirty full-color postcards are printed on sturdy card stock with illustrations of Barker's most popular fairies. The Pre-Raphaelite Landscape Allen Staley 2001 In this completely revised and updated second edition, Staley takes into account important paintings that have recently come to light, as well as current understandings of the Pre-Raphaelite movement and its legacy. The author provides a comprehensive account of the background and formation of the Pre-Raphaelite Brotherhood, the role of landscape in major Pre-Raphaelite figurative paintings, and the emergence and impact of a school of Pre-Raphaelite landscape painting as well as its place in the wider tradition of British landscape painting. The important Pre-Raphaelite figures, John Everett Millais, William Holman Hunt, and Ford Madox Brown, are discussed, as are the main landscape specialists affected by the movement: Thomas Seddon, George Price Boyce, John William Inchbold, and John Brett. Attention is paid to the significant influence of John Ruskin and his active involvement with many of the artists. This spectacular volume, enhanced by over 150 colour illustrations, is the definitive study of its subject and will provide both visual and intellectual stimulation for anyone drawn to the work of the Pre-Raphaelite Brotherhood and its followers.

Desperate Romantics Franny Moyle 2012-11-08 Their Bohemian lifestyle and intertwined love affairs shockingly broke 19th Century class barriers and bent the rules that governed the roles of the sexes. They became defined by love triangles, played out against the austere moral climate of Victorian England; they outraged their contemporaries with their loves, jealousies and betrayals, and they stunned society when their complex moral choices led to madness and suicide, or when their permissive

experiments ended in addiction and death. The characters are huge and vivid and remain as compelling today as they were in their own time. The influential critic, writer and artist John Ruskin was their father figure and his apostles included the painter Dante Gabriel Rossetti and the designer William Morris. They drew extraordinary women into their circle. In a move intended to raise eyebrows for its social audacity, they recruited the most ravishing models they could find from the gutters of Victorian slums. The saga is brought to life through the vivid letters and diaries kept by the group and the accounts written by their contemporaries. These real-life stories shed new light on the greatest nineteenth-century British art.

J.W. Waterhouse Elizabeth Prettejohn 2008 With his grand scale and richly colored canvases and studies, John William Waterhouse (1849-1917) was one of the most influential painters of the 19th century. In this brilliantly illustrated survey, edited by a leading Waterhouse scholar, the painter's seductive vision of femininity is captured in sumptuous reproductions and illuminated by an engaging and informative text. Published to accompany an important exhibition of the artist's work, the book explores Waterhouse's creative responses to such contemporary concerns as medievalism, the classical tradition, and spiritualism. A comprehensive examination of his life and work, including his well-known painting "The Lady of Shallott," this volume explores also the artist's connection to the Pre-Raphaelite Brotherhood and his engagement with French art of the period.

Truth and Beauty Melissa E. Buron 2018 This dazzling book examines the inspiration behind the work of the Pre-Raphaelites and offers comparisons between the radical 19th-century artists and the masterworks they revered. Started in the early 19th century by a group of British painters who rejected the sovereignty of the Royal Academy, the Pre-Raphaelites embraced the natural world and bright colors--as opposed to the dark palettes and amorphous lines that emerged in the wake of the Renaissance. Their mission was to be fundamentally modern by emulating the past. Now readers can appreciate their achievements in this volume that offers side-by-side comparisons of 19th-century

masterpieces with the 15th- and 16th-century Early Italian and Early Netherlandish paintings that inspired them. Exquisite reproductions of works by Giotto, Fra Angelico, van Eyck, Botticelli, Titian, Veronese, and Raphael are presented alongside examples by William Holman Hunt, Dante Gabriel Rossetti, John Everett Millais, and others. The book traces the evolution of the Pre-Raphaelites, and details how these painters were exposed to the early masters as they traveled and encountered the finest European collections. The volume also features decorative arts, including stained glass and tapestries in emulation of Flemish and French textiles as well as "medievalized" ecclesiastic decorations. The result is an illuminating examination that delves into the Pre-Raphaelites' aesthetic vocabulary and broadens our understanding of their motives and inspiration. Published in association with the Fine Arts Museums of San Francisco

The Pre-raphaelites and Science John Holmes 2018-06-26 This revelatory book traces how the Pre-Raphaelite Brotherhood and their close associates put scientific principles into practice across their painting, poetry, sculpture, and architecture. In their manifesto, *The Germ*, the Pre-Raphaelites committed themselves to creating a new kind of art modeled on science, in which precise observation could lead to discoveries about nature and humanity. In Oxford and London, Victorian scientists and Pre-Raphaelite artists worked together to design and decorate natural history museums as temples to God's creation. At the same time, journals like *Nature* and the *Fortnightly Review* combined natural science with Pre-Raphaelite art theory and poetry to find meaning and coherence within a worldview turned upside down by Darwin's theory of evolution. Offering reinterpretations of well-known works by John Everett Millais, William Holman Hunt, Dante Gabriel Rossetti, Ford Madox Brown, and William Morris, this major reevaluation of the popular Victorian movement also considers less-familiar artists who were no less central to the Pre-Raphaelite project. These include William Michael Rossetti, Walter Deverell, James Collinson, John and Rosa Brett, John Lucas Tupper, and the O'Shea brothers, along with the architects Benjamin Woodward and Alfred Waterhouse.

John Waterhouse: 130 Paintings Jessica Findley 2014-11-05 John William Waterhouse (1849 - 1917) was an English painter known for working in the Pre-Raphaelite style. He worked several decades after the break-up of the Pre-Raphaelite Brotherhood, which had seen its heyday in the mid-nineteenth century, leading him to have gained the moniker of "the modern Pre-Raphaelite". Borrowing stylistic influences not only from the earlier Pre-Raphaelites but also from his contemporaries, the Impressionists, his artworks were known for their depictions of women from both ancient Greek mythology and Arthurian legend. In 1895

Waterhouse was elected to the status of full Academician. He taught at the St. John's Wood Art School, joined the St John's Wood Arts Club, and served on the Royal Academy Council.

Michael De Feo: Flowers Michael De Feo 2019-04-09 As an art student in 1993, Michael De Feo drew a simple bloom that became a familiar and welcome presence in New York after he spent countless nights pasting hundreds of versions of it all over the city's building walls. Twenty-five years later, these flowers have been sighted in more than 60

international cities. His street works took a new direction in 2015 when a guerrilla art collective provided him access to the cases that protect bus-shelter ads, enabling him to launch a beautiful campaign of his blossoms on top of fashion ads. His art has taken many forms, including a substantial body of studio work inspired by Dutch 17th-century paintings and another series which married floral themes with Pre-Raphaelite and Victorian portraiture. De Feo's colorful and lively book reproduces more than 200 of his flower-inspired images and features commentary from a diverse group of people who have supported his often-clandestine work. *Language of Flowers - Illustrated by Kate Greenaway* 2013-04-16 In this wonderfully unusual work, Kate Greenaway provides an enchantingly illustrated glossary of 'the language of flowers'. It shares the tradition, sparked by renewed Victorian era interest in botany and exotic plants - of using flowers as a means of covert communication. A fascinating insight into a bygone era, when the gift of a Tamsy was a declaration of war, and a Garden Daisy meant 'I share your sentiments', this text is a real treasure. 'The Language of Flowers' contains eighty-two beautifully illustrated colour pages, and was originally published in 1884. Kate Greenaway (1846 - 1901), was a children's book illustrator and writer, and remains one of the most popular illustrators of all time. Edmund Evans produced her first book ('Under the Window') in 1879, which was an instant best-seller and cemented her pre-eminent position. Her charming children in quaint costumes and idyllic scenes captured the imagination of the contemporary public - and continue to delight over a century after their initial publication. The artwork is presented in conjunction with the text - both further refining and elucidating the other. Pook Press celebrates the great 'Golden Age of Illustration' in children's literature - a period of unparalleled excellence in book illustration. We publish rare and vintage Golden Age illustrated books, in high-quality colour editions, so that the masterful artwork and story-telling can continue to delight both young and old.
